- Honors/Awards: Emerging Innovator, 2x UCSD PACE Scholarships, ERC Honors Program, Provost Honors, 36th URC

EXPERIENCE

QUALCOMM INSTITUTE | Telecom and IT | La Jolla, CA

Jan 2024 – Present

Applied AI & Junior Software Developer (Cognitive City Twins)

- Implemented scalable data integration workflows using blueprints and structs in Unreal Engine 5
- Developed digital twins for cities and UCSD based on Cesium for Unreal, focusing on commercial real estate use cases
- Integrated Google Maps API for a realistic global world as the base for visualization needs in real estate and urban planning
- Built interactive, 3D widgets to display property/urban data, emphasizing user experience and future VR integration
- Used Datasmith Exporter plugin to integrate Cesium in Unreal with SketchUp Pro for property modeling

WORLD DESIGN ORGANIZATION | Design Services Society | San Diego, CA

Jan 2024 – Jun 2024

Housing Solutions Consultant & Designer in Residence (Science & Technology Network)

- Advised the ADUGenius project on ADUs as an innovative housing solution, covering financing structures, tax benefits, saving strategies, building costs, ordinance adoption, setbacks, myths, designs, sustainability, and useful policies/programs
- Served a secretary role in meetings and correspondence between stakeholders from the United States, Mexico, the UC San Diego Design Lab, and impact project leads to assist San Diego-Tijuana international collaboration projects
- Performed administrative duties for the Science & Tech Network, including event coordination, media design, monthly updates to the World Design Capital committee, event MC/moderator at events with community members & project leads

UC SAN DIEGO Urban Studies & Planning | Academic Department | La Jolla, CA

Sep 2023 - Jun 2024

Affordable Housing Research Assistant & Data Science Fellow

- Reported affordable housing policy incentives and cost factors, emphasizing public improvements and tax incentives
- Networked with industry professionals to study affordable housing market feasibility, focused on LIHTC and ADUs
- Received sponsorship to network with SDGBC to study green building techniques and integration with affordable housing
- Programmed a bespoke algorithm to parse property data from CoStar into a tabular format for non-commercial purposes
- Applied statistics and machine learning on over 5000 LIHTC projects to derive factors influencing fund allocation
- Utilized analysis methods for social science: feature engineering, clustering, attribute stratification, marginal error analysis

PROJECTS

H2 Hillcrest | Personal Project

A design-focused proposal for a state-of-the-art urban infill, mixed-use redevelopment project in Hillcrest, San Diego, to address walkability/ground-activation, housing, multimodal transportation, with strategic, active commercial uses for the local economy.

D3 San Diego Multifamily Visualizer | Team Project

A D3.js web app to answer the question "Which San Diego submarket for your next multifamily investment?", data queried from CoStar is visualized on a choropleth map of San Diego, highlighting multifamily vacancy rates, built/renov. year, # parking/unit
